About ICEC

Founded in 1976, the International Cost Engineering Council (ICEC) is a not for profit organisation that promotes cooperation between national and multinational Cost Engineering, Quantity Surveying and Project Management professional associations around the globe.

ICEC is an umbrella organisation that represents project cost management associations on a global scale. Its membership currently comprises well over 40 professional associations spread throughout the world. Whilst ICEC does not permit individual membership, ICEC collectively represents more than 120,000 project cost management professionals from over 100 different nations in the fields of Cost Engineering, Quantity Surveying and Project Management. These professionals are all members of ICEC member associations.

This provides a tremendous international network of project cost management professionals, firms and associations. ICEC provides a global identity for the profession.

International Framework

ICEC provides an international framework to promote worldwide exchange of project cost management information and experiences. A fundamental principle of ICEC is that it does not compete with member associations but rather provides the vehicle to promote collaboration between member associations and their members and to foster and promote the profession on a global scale.

ICEC is divided into 4 geographical regions:

- Region 1 - North and South America
- Region 2 - Europe and the Near East
- Region 3 - Africa
- Region 4 - Asia Pacific

The organisation is presided over by an Executive Committee comprising a Chair, Senior Vice-Chair, Administrative Vice-Chairs, Technical Vice-Chair and a Secretary-General. A Region Director is also appointed to oversee ICEC's activities within each region. These positions are elected for a 2 year period at each biennial ICEC Council Meeting.

This is supported by the ICEC Secretariat which is based in Canberra, Australia. An Administrative Secretary provides the administrative support for the organisation.

Membership Benefits

The benefits enjoyed by associations and their members who become part of the ICEC member community are:

- Participation in a worldwide information network for exchange of Cost Engineering (CE), Quantity Surveying (QS), and Project Management (PM) information, queries & experiences
- Regional and worldwide congresses, meetings & seminars
- Promotion of standards for certification and continuing professional development programs worldwide
- Accreditation of certification and continuing professional development programs of member associations and reciprocal recognition of such accredited programs
- International promotion of member association congresses, symposia, and other technical events
- Sharing of technical journals and other publications with other ICEC member associations
- Right to reprint (with appropriate credit) articles appearing in the journals of other ICEC member associations
- Granting individual members of any ICEC association the rights and privileges of membership (excluding the right to vote or stand for elective office) while temporarily residing or working in the home country of another member association
- Promotion of co-operative research and technical activities among member associations
- A dedicated homepage on the ICEC website for each member association to promote their activities
- Development of international standards for terminology in CE, QS, and PM
- International promotion of member association publications
- International book reviews
- Worldwide communication for queries about technical matters by individual members of ICEC associations
- Development of beneficial relationships with other international coordinating bodies such as the International Project Management Association (IPMA), the Pacific and African Associations of Quantity Surveyors (PAQS & AAQS), and the International Federation of Surveyors (FIG);
- Fostering of networks between academics and universities engaged in CE, QS and PM education
- Joint development of position papers and reference documents of broad international interest.

ICEC Accredited

Certification & CPD Programs

ICEC Member Associations may seek ICEC accreditation of Cost Engineering, Quantity Surveying, and Project Management certification and continuing professional development programs (CPD). These programs must meet ICEC's international standards to be recognized and accredited.

Persons qualified under any of these accredited programs are entitled to use the International Cost Engineering Council name and logo and the post-nominals ICECA to designate their achievement.

In order to obtain ICEC accreditation for Project Management programs, the applicant organization must demonstrate that their programs fully meet the standards adopted by the International Project Management Association (IPMA).

For further details please refer to the ICEC website at:

<http://www.icoste.org/accred.htm>

ICEC Member associations interested in this international accreditation of their certification and continuing professional development programs may apply on-line through the ICEC website.
